

Structural epoxy adhesive

Benefits

- **General purpose adhesive**
- **Easy to use**
- **Translucent**
- **Comfortable open time**
- **Ageing resistance**
- **Accept difficult operating conditions**

ADEKIT H 9011 - Structural epoxy adhesive

PROPERTIES

GENERAL PURPOSE ADHESIVE

H9011 uses a specific hardener technology to offer a wide range of adhesion.

It can be used on most common materials such as metal, wood, glass, ceramic, several plastics and composite.

Use Adekit Cleaner first for optimal bonding.

LIQUID AND TRANSLUCENT

The intermediate viscosity of H9011 offers the possibility of bonding and potting. Applied in thin layer, the product is nearly invisible.

COMFORTABLE OPEN TIME

With 100 minutes of pot life small and big parts can be bonded. Curing can be easily speeded up with limited temperature increase.

READY TO SWITCH FROM THE COMPETITION

This product offers an alternative to the market leader with the value of Axson network based on decades of a close working relationship with customers within the industry.

	H9011
Viscosity	25-40 Pa.s
Pot life	100'
Hardness	80 Shore D
Elongation	9%
Handling time	7h
LSS aluminium	19 Mpa
LSS stainless steel	21 Mpa
Peel	5 KN/m
